## Vacancy: Frontend and Mobile App Developer

We, at MEG for Consultancy (Middle East) and Internationals Human Power (Germany), are specialist for international recruiting of high qualified expats for German companies in Germany and Middle East. We support the job applicant through the recruiting and the immigration process in Germany.

**Info:** German government provide the **Blue Card** for foreigners to immigrate and work in Germany.

For one of our major clients, a German Startup, we are looking as soon as possible for a suitable candidate for the below open vacancy in **Germany-Berlin**.

### How to Apply

1. If you fulfil the job's requirements, please register yourself in our applicant Portal and upload the request documents on <https://meg-consultancy.com/start-your-career.html>
2. Add following documents/Info to your profile:
  - CV: Use our CV [template](#) from the applicant portal (after login), and upload the word format.
  - Professional Picture
  - Qualification/Experience certificates
  - Enter the above Job reference and title in "Target job" section in your profile (**Important**).

**Deadline: 04.06.2017**

For any questions send us an email – In the email's subject add the job reference and title.

Selected candidates will be contacted accordingly.

**Note:** successful candidate can apply for the Blue Card (work and residency permit) for Germany

Thanks & Good luck

## The Company:

Our start-up is a “neighbourhood” network, a new platform for exchange between individuals and businesses in the region. People, organizations and businesses communicate exchange recommendations and make their neighbourhood loveable, alive and safe.

For this we look for you as:

## Your Tasks

You are always experimenting with the latest javascript frameworks, and it is sometimes consider to use vanilla JS rather than an overloaded framework?

Do you like to work with dedicated designers and product managers?

Then we are looking for you!

- Development of the app, also considering the enduser's needs
- Development of the front-end using HTML5, CSS3, JavaScript and the usual frameworks such as JQuery, AngularJS, Bootstrap, React, and more.
- Design, design and development of user interfaces for web and mobile applications

## Required Skills

- Successfully completed studies with a focus on computer science, IT, informatics, communication, or comparable study with professional experience
- You are confident in using mockups, interaction-prototypes and process charts
- You are an experienced front end and app developer in the field
  - Webpack
  - React & React Native
  - Redux
- Analytical skills, a structured and result-oriented approach as well as a high self-responsibility round off your profile
- Very good English
- German Language is a plus

## The Company offer

- The opportunity to actively shape a growing start-up
- Flat hierarchies and very short decision paths
- Beautiful and modern high-end office in the heart of Berlin
- The possibility to set accents and help shape the product right from the start
- A dynamic and highly motivated team with whom you grow
- Flexible working hours
